## **DETAILED ACTION**

### **Reason for allowance**

2. Claims 1-8 are allowed. The following is an examiner's statement of reason for allowance:

#### **I/ Group I: Claims 1-7:**

None of the references of record teaches or suggests the claimed **MEMORY CELL ARRANGEMENT AND METHOD FOR THE PRODUCTION THEREOF** having the limitations:

--" a silicon nitride diffusion barrier layer between the first contact-making lines and the second dielectric layer, the diffusion barrier layer being in direct contact with the magnetoresistive memory components and being configured to minimize memory drift by suppressing diffusion of copper out of the first contact-making lines into the second dielectric layer and into the magnetoresistive memory components, and by suppressing inter diffusion between the ferromagnetic layers and the first contact-making lines. "--

and all other limitations as recited in claim 1.

#### **II/ Group II: Claims 8:**

Claims 8 is allowed because the prior fails to teach a step:

-- " depositing and patterning the diffusion barrier layer such that the diffusion barrier layer is in direct contact with the magnetoresistive memory components;"- and all other limitations as recited in claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
